Smart Styles For Spring

WE HAVE THE SORT OF CLOTHES that lift a man above the level of the ordinary dresser.

Our garments are always "smart" and always "different."

While your reputation depends to a certain extent on the sort of clothes you wear, your reputation depends entirely on the sort of clothes we sell, and for this reason we guard against the "ordinary" in our offerings to our trade.

The new Spring Garments are beauties. We are showing all the new English and American style features.

Suits \$5 to \$26 Spring Overcoats \$7 to \$20

Turn your steps this way for clothes that will at once mark you as a well dressed man.

MRS. BAILEY LEFT \$100,000. Bequest from the Widow of the Owner of a Circus.

WHITE PLAINS, N.Y., April 2. The will of Mrs. Ruth Lewis Bailey, widow of the late James A. Bailey, late partner in the Westchester County Buttermilk Co., was filed in the Westchester County Surrogate's office at White Plains late this afternoon, and disposed of an estate valued at close \$100,000. Mrs. Bailey, a few months ago returned from a trip to Japan, and died at Hobe Sound, Florida, on March 11. She was the daughter of "The Knolls," a mansion worth \$200,000.

After giving \$5,000 to the Woodlawn Cemetery Association, Mrs. Bailey leaves \$15,000 to the Hobe Sound, Florida, orphanage, to her niece, Anna Louise, Hobe Sound, Florida, and to her nephew, John, Hobe Sound, Florida. The balance of the estate, \$70,000, is to be paid to her nephew, John, Hobe Sound, Florida.

# To the Citizens of Belleville and Vicinity

We wish, in a brief description, to draw your attention to one of the most wonderful opportunities for investment in Real Estate that has come before your observation in many a long day—one that is so safe, sure and legitimate that the most scrupulous and careful among you can afford to investigate and participate in because there is absolutely not a chance that you can lose your money or that you will not make a splendid profit on your investment.

The City of Montreal, within a few hours ride of here, with a population fast approaching 600,000 souls, is having an awakening in Real Estate matters that will make fortunes for the people who to day ingest some of their savings; there, and surely when astute New Yorkers and others with all established precedents of phenomenal growth of their own and other big cities, come and invest thousands, nay hundreds of thousands, in Montreal Real Estate, is that not good enough evidence for Canadians that here must exist an opportunity to place their money on a sure thing. Don't forget this is not a mining scheme—something none of us are sure about—but a safe, sane and sensible investment that always "makes good."

Montreal with headquarters for Three transcontinental railways; headquarters for all the commercial houses of this vast Dominion, summer ocean port for Atlantic Liners, which land foreign immigration right at her door, the money pulse of Canada for all banking institutions have their headquarters in Montreal; is surely the important "town" of the Dominion and bears the same relation to Canada as New York City does to the United States.

## Opportunity

Webster says:

"A time attended with favoring circumstances. Favorable chance, as opportunity for gain."

There exists to-day right here in the City of Montreal and within a distance of 21.2 miles of the centre of the City one of the most wonderful opportunities that was ever presented or ever will be presented again to the man of limited means—the man who cannot afford to gamble with his money (for that matter to the man of unlimited means as well) to make an investment in Mother Earth that will bring returns no other investment can be safely expected to do. In fact the opportunity is so extraordinary, the precedents for such a wonderful increase are so numerous, that the wonder is capitalists do not rush in and take possession of it, (they have in a measure) but like other opportunities at times these wonderful possibilities seem to dull the power to grasp their full significance. When the Subway line was being built Northward through New York City, there was not a movement towards increased values Northward, in the built up districts, until the first Subway train delivered its load of passengers. Then almost like magic, prices took a jump and started to soar upward. (This information comes from the most reliable authority.)

These astute New Yorkers could not grasp the significance of expeditious transit, at once. It never occurred to them that if men and women could reach a point in 10 minutes that formerly occupied 50 minutes there would immediately be a rush to get away from congested quarters to a point where prices were more reasonable. That is what really happened, and increased prices developed fortunes to the first who saw OPPORTUNITY.

To further enlighten you on the situation we have placed on exhibition at W. B. Riggs' Piano Store, 327 Front St., a large, handsome, valuable oil painting of Montreal and vicinity, executed by W. F. Burger, the celebrated English artist. This painting shows the relation "Tunnel Terminals" bears to Montreal City. Its advantageous position can be readily appreciated. Our temporary offices will also be located at above address in charge of Mr. Tom B. Johnson. Make enquiry for plans and further particulars at once to secure some of the best offerings. Properties sold on small deposit, easy terms and no interest.

C. C. COTTRELL,  
President C. C. Cottrell, Limited, Real Estate  
Brokers, Montreal.

And do you call that wonderful?

Well, why don't you grasp the most wonderful chance you ever had in your lives to make money in the same manner, but easier, RIGHT HERE in your own country?

The coming of the Canadian Northern Railway under Mount Royal into the City will revolutionize conditions. (Do you really believe YET it is going to happen), for it's not only the incoming of that railway but it's outgoing, and these changed conditions will tend to distribute the population farther afield, and relieve the already congested districts.

IMMEDIATELY ACROSS THE RIVER from this congested district exists to-day one of the most desirable pieces of land in the World, for a Home rising gradually backward from the river, some 80 feet above its level, with a Street Car line already operating through it, and making the distance in 25 or 30 minutes.

Already the rumbling of the trains across the Harbor Commissioners Bridge or through the Montreal Street Railway Co's tunnel can be heard in movements on foot to hurry up a better and quicker means of transportation to the South Shore, the purchase of large tracts of land there and granted Charters for a \$15,000,000.00 tunnel. Then 7 1/2 to 10 minutes will land you right in this district.

To-day you can buy property there at 6 1/2 cents a foot, and a little further South at 2 1/2 cents a foot. Figure it out, LAND 2 1/2 MILES DISTANT IN EVERY OTHER DIRECTION COSTS 75c to \$1.00 A FOOT NOW.

Cannot you see that what happens everywhere else, must here come to pass, and what you NOW pay 2 1/2 or 6 1/2 cents a foot for will then be worth 60, yes 75 cents a foot.

Here then is YOUR opportunity. YOURS. Don't let those old timers who never saw any real progress and who are always out to poohoo the inevitable march of progress, dissuade you, but use your own thinking apparatus. REASON IT OUT. Make comparisons. And, SAY! Do you think you can make much of a mistake at 2 1/2 and 6 1/2 cents a foot?

I advocated West End property of Montreal 4 years ago, and the wise ones are making money and barrels of it now.

Mark down in your diary these words:

South Shore only 2 1/2 miles from the centre of the City is the next spot that will have the call.

IT'S YOUR OPPORTUNITY.

It's coming and it's coming soon. There's no doubt at all the SOUTH SHORE is the natural site of Greater Montreal.

# "I'm going for a Tillson's, sir," she said

You see this little maid has learned to discriminate between rolled oats in general and Tillson's Rolled Oats in particular.

There is a big difference. But there is only one way you can find it out. By trying Tillson's.

Tillson's are the only rolled oats that can be cooked perfectly in 15 minutes. If you have been taking longer than that to make your porridge, you have been exhausting time and effort needlessly.

The reason Tillson's cook so quickly is the extreme thinness of flake—such thinness that the heat penetrates the flakes almost instantly in 15 minutes cooking transforms them into tasty, easily digestible porridge.

Legislature Supports Present  
Civil Service System.

W. W. Russell Speaks In Behalf of His  
Motion to Create a Commission to  
Govern the Public Employed of the  
Provinces—Leader of the Opposition  
Criticizes Amendments to the Pow-  
er Commission Act.

Yonkers, April 2.—Lift the civil service out of politics, eliminate the spoils and patronage system, make appointments and promotions by competitive examinations, and create a non-partisan civil service commission. These were the proposals N. W. Rowell, leader of the Opposition, advocated in a motion before the Legislature yesterday. His motion was lost on amendment. The Premier introduced an amendment to the effect that the House congratulate the President on the present administration of the civil service and the absence of the spoils system, and it was carried.

Mr. Rowell delivered a splendid speech in support of his idea, but when he voted the Premier gave him the floor and he introduced an amendment which looked very good for the Government's supporters.

Dr. Jamieson, South Ury, referred to his respecting uterapists to a number of the members of the assembly, among other things, that all osteopaths who have been practicing less than 10 years must be examined by the Ontario Osteopathic Council. The special committee on osteopathy, consisting of Messrs. McQueen, Thompson (Rimco), and MacLennan, reported that the Ontario Osteopathic Association, through Mr. McHenry, suggested that the following be adopted: "It is a well understood maxim of the Hon. Dn. Frye, in moving for the amendment of the act respecting the compulsory schools of medicine, that in all countries where the people have the function of government the osteopaths at least the osteopaths of the United States, be required to be examined by the government, then told of how some countries, such as Switzerland and Sweden, require compulsory examination under varying conditions up till the year 1900. In Ontario, however, this law is not in force, and the majority of the assembly voting on the proposition, Mr. Jamieson thought the compulsory bill would be passed, but admitted that the Ontario Osteopathic Association would be preferable. The Ury system gets in, and the Ontario Osteopathic Association is

**C.P.R. Invades Austria.**  
London, April 3.—(C.A.F. Cable.)—An announcement that the C.P.R. has entered into an agreement with the Austrian Government to operate observations on three main routes of Austrian state railways. The news has caused considerable excitement in Austria, where an increase in tourism of Canadians and Americans is really expected, and the Government is being besieged by citizens for specific details of the extension of the service, and intelligence has been made in the Hungarian Parliament that pressure be put with a view to extending the route to Budapest.

Negress Saw Seventeen.—  
Myrtle, Ind., April 3.—Clemen-  
senaert, a "ball-blood" negress,  
story here yesterday that the  
authorities say they accept as  
being the mystery veiling the kill-  
ing of twenty negroes in southwest  
Ohio, and which, it is said, gave  
her the will to sue the guilt for fifteen  
night assassinations of black  
Americans in Texas.  
Clementsena's story it appears  
is a mysterious negro cult, the  
acts of which performed the rit-  
uals of human sacrifice.

most of the victims with her own

# Canada's Greatest Real Estate Opportunity

**Y**OU have been reading about MacKenzie and Mann's great coup in Montreal, whereby they will secure a terminal in the business heart of the city by means of a tunnel, driven through Mount Royal from the North; and at the same time bring the beautiful residential district north of the mountain within eight minutes of the centre of the metropolis.

Unique in its originality, daring in its conception, and gigantic in its cost, it is little wonder that the announcement of the undertaking caused a sensation in Canada, United States and Europe; and provided the material for hundreds of special articles in the daily press, magazines and financial publications.

By opening up the district North of Mount Royal for settlement, the project will confer a great benefit on Montreal, which for years has been one of the most congested cities in America. Hemmed in on a narrow strip of land between Mount Royal and the St. Lawrence, the congestion in Canada's greatest metropolis has grown more frightful year after year.

## Montreal's Yearly Increase In Population Large Enough To Fill "Model City"

**U**NLIKE Toronto, Ottawa, Hamilton, London and other Canadian cities, Montreal is not a city of homes. It is a city of tenements, flat houses and apartments. And there are thousands of home-hungry people within its borders.

And it is growing fast. Montreal has the largest birth rate of any of the world's largest cities. Montreal's percentage of increase in population during the last ten years shows that it is without a rival compared with the cities of the United States. New York's percentage of increase was only 38.7 per cent., Boston's 19.6, Baltimore's 9.7, whereas Montreal's was 70.3 per cent.

the entire present population of Hamilton or Ottawa.

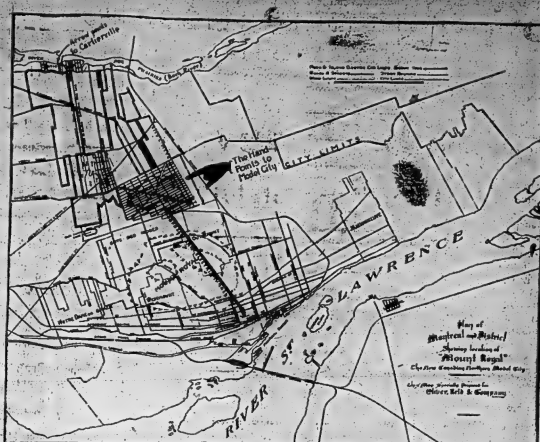

The yearly increase in Montreal's population is large enough to occupy the whole of the Model City—the beautiful new residential district laid out North of the Mountain by the C.N.R.—and still leave 10,000 people to find homes elsewhere. Montreal is increasing at the rate of 50,000 a year, but the Model City is only planned to accommodate about 40,000 people.

This means that a real estate investment in the Model City is a safe, sure, high-grade opportunity—and one that will double and treble in value as the work on the tunnel progresses and the erection of homes proceeds.

## C. N. R. Anxious

Preliminary work on the tunnel commenced on March 26th. No time will be lost in rushing the tunnel to completion. The C.N.R. are exceedingly anxious to become a strong factor in handling the increasing volume of business concentrating at the metropolis. They are also anxious to provide the Model City with rapid transit at the earliest moment and enjoy the lucrative traffic that will result.

So that you see the necessity of prompt action if you are to benefit

largely from a real estate investment in the Model City—a city laid out by a noted landscape gardener, a city with broad diagonal boulevards, wide avenues, a circular driveway, and fourteen small parks—an ideal residential district in every respect. A district whose residents will be carried in comfortable electric trains through a well-ventilated, double-tracked subway to the business heart of Montreal in less than 10 minutes. No snow blockades. No delays by congestion of street traffic. Express speed all the way.

### See the Map

The strategic location of the Model City is well shown on the map. Notice the direct course of the tunnel from the Model City terminal to city terminal. Note also that the distance from Montreal Harbor to Cartierville on Rivière des Prairies (Back River) is less than the distance of the city limits from East to West. With the tunnel through Mount Royal, the natural growth of Montreal in the future will be in the direction of Cartierville towards the Back River. The Model City is midway between the Harbor and Cartierville. Note also the close proximity of the fashionable district of Outremont to the Model City. Also note that the Montreal city limits run just outside of the Eastern side of the Model City, continuing on to Rivière des Prairies (Back River).

And just think you can secure lots in the Model City at less than half the price of similar size lots in other purely residential sections of Montreal. Less than half the price of lots in the fashionable residential districts of Toronto, such as Rosedale, Avenue Road, Deer Park, and High Park, which are from 20 to 50 minutes from the business centre of Toronto.

## First Choices

The lot will be **First Selections**, too. Only one other syndicate had an equally wide choice of C.N.R. Model City properties. We have, at all times, been in close touch with the C.N.R. since the birth of their project. We handle only large propositions, this one amounting to over \$1,500,000. We invite business men and professional men to share in this great real estate opportunity in the solid old metropolis of Montreal. Its like has never occurred in Canada before, and the same combination of circumstances, that made this opportunity possible, will never occur again. Why leave your money in the bank earning a low rate of interest and an opportunity like this at your door?

Fill in, clip out and mail the coupon promptly. Action is essential. Leading banks have already chosen their sites on the main streets and asked to have them reserved. Get our official booklet and full information quickly.

Married women in the public schools and in the home, there are many who are not satisfied with the salaries of the women teachers.

The salaries of the women teachers in the public schools are not as high as those of the men teachers, and this is a source of dissatisfaction.

On the question of the salaries of the women teachers, the Board of Education has decided to increase the salaries of the women teachers in the public schools.

Through Miss Stephens, Miss Orme became interested in the salaries of the women teachers in the public schools, and she has been successful in securing an increase.

## POISON MYSTERY

## Famous Cigar-Cazing Case Ends in 'Not Guilty'

ALLAHABAD, India, March 25.—The High Court has decided the crystal-gazing murder case by unanimously acquitting Miss K. S. M. Stephens of having caused the death of Miss Gertrude Orme at Mussoorie in September last, by poisoning her with arsenic acid.

In delivering judgment, the Chief Justice remarked that the true circumstances of the case were such that the case was in India, owing to the peculiarity of its "atrocious character."

Miss Gertrude Orme was a woman of fifty years who had lived in India for fifteen years. She was successful in securing an increase in the salaries of the women teachers in the public schools.

## WOMAN'S WORLD

## Suggestions from Paris

In reading some of the latest Paris fashion books I saw that the advice to be that a full skirt and enough buttons to make your last waistline hold out of date. The skirt will be cut straight; that is to say, will have the narrowest around the waist than at the knee, as was the case last season.

The position of the waist line has not changed, nor is it likely to, as the slightly raised waist line gives the good a line to wear and allows it to be changed. In other words, the natural waist line is better. One may, of course, study one's own figure and adopt what style is best suited to her own shape. As for the skirt, it is to be a straight skirt.

As to the sleeves for the spring and summer French blouse, the separate sleeve is still popular, and the long sleeve is still popular. Another Paris house says that the separate sleeve is actually better, but that the separate sleeve is a pretty thing. The separate sleeve is as good as a separate sleeve, and it is to be a separate sleeve.

For the spring dress the sleeve is to be short for day and afternoon wear, but the most popular length is just over the elbow.

The French or Dutch neck will be as popular as in the past few seasons and worn by those who have a good figure. The neck will be a good one for the woman who has a good figure.

# Choose First Selections in the Model City---The Beautiful New Residential District of Montreal

1. The first group of variables includes the demographic characteristics of the respondents, such as age, gender, and education level. These variables are used to control for potential confounding factors that may influence the relationship between the independent and dependent variables.

Just what this means to you depends on whether you grasp the full significance of the remarkable real estate opportunity that now lies before you, or whether you let it slip by never to occur again. Certainly, the same combination of circumstances, that made this Model City opportunity possible, can never occur again. It is an opportunity that is unique in the history of real estate in America.

## Montreal A Solid City of 587,756

London, Ontario. One year's increase in Montreal's population is enough to occupy the whole of the Model City and still leave 10,000 people to find homes in other sections of the city. You see, Montreal has urgent need for the C. N. R.'s new residential district.

## Montreal Increasing at Rate of 50,000 Yearly

You can secure first selections through Oliver, Reid & Co., Ltd. Only one other syndicate had an equally wide selection of Model City properties. The lots we offer are certainly choice locations, as you will see for yourself from the map we will send you.

## Greatest Real Estate Opportunity in Canada

Lots go on sale on the morning of April 8th. So you've just got time to get fully posted on the Model City real estate opportunity.

# Sir Donald's Story of Their Big Project

(From The Toronto World)

According to Sir Dyer, the real key to the situation presented itself when he and his associates saw not only how difficult it was to be a general, but how difficult it was to be a local commander. It had indeed become a housing and dwelling problem as the railway had to get into "the city," which was so difficult. The harbor was big enough and the docks were magnificent, but there was a lack of freight yard sites and there was lack of space to run a railway. The railway had to find places for a big station and there was a congested city. But engineers can do almost anything if they have the money and a lot of men. The railway, and it was by taking advantage of daring engineering work and by taking advantage of the security of the railway, was the key to putting the city in Montreal, and that a solution of both problems was found in the one project.

### Daring Scheme

Accordingly, they calculated that if they tunneled Mount Royal Mountain from its north, or back, side three miles into the heart of the city, they could add the beautiful district that lay just at the back side of the mountain, and MAKE IT WITHIN TEN MINUTES OF THE CONGESTED CENTRE OF MONTREAL. This would give the city additional space for homes, and it would at the same time give the railway an unequalled approach to the heart of the city.

They set engineers to work and in a short time they confirmed Sir Donald's suggestion that it would be possible to tunnel the mountain from the direction of the Jack River right into the centre of the city, and to get to tidewater, and to have at the same time a large new district for settlement. Therefore the company bought 8,368 acres of land, and the north portion of the tunnel was bought at a large block on Dorchester Street, at the heart of the city, for a million

**Coastal City**

[illegible]

And the passenger trains of the company in and out of the city will be handled with the same rapidity, the same absence of weather impediment, as the city and suburban traffic, Winter and Summer, snow or storm. No streets to cross, express speed in and out from the city terminal. Nor will there be any smoke in the tunnel, every car and every train will be handled by electric traction.

C. H. H. and J. T. B.

For years now the Canadian Pacific and the Grand Trunk have been planning to get away from the level cross-ings and the level crossings are here and have only done so in part. The Canadian Pacific at the present moment is building and improving its electric traction approach to its Windsor terminal. The Grand Trunk has abandoned the idea of raising the level of the crossing and has instead substituted track that will cost millions and even this when built will be a very expensive way of handling street traffic. The Canadian Northern has the usual approach, a modification of the level crossing, giving a double road for traffic, giving a comfortable ride for the business car but this is the greatest thing that has come out of the thing past 50 years of its history.

## Display and Sale of House Dresses

NEW YORK, April 6.—The Herald this morning has the following:—  
"Two 'Wrights' are a very dangerous

couple, according to a corrected version of the register in the Hotel Berlin last night. These two Wrights in question are from Ottawa, Canada, and were not related when they came on one of the Canadian excursions to spend the Easter holidays. They are

related now, for they were married yesterday at City Hall. Hence the change on the hotel register.

"Charles J. Wright, who admits he is one of the leading florists of Ottawa, arrived here with five thousand other Canadians. Two hundred registered at the Pacific. Miss E. Jones

Wright was one of the two hundred. The Wrights were acquainted in Ottawa and when Miss Wright went to

"We were married, that is true," said Mr. Wright last night, "but we want to keep the news secret until we return home. If our friends here knew of it they would embarrass us around the hotel. Please help us to keep this news secret."

"Who performed the marriage ceremony?" he was asked.

"I don't know exactly, but I think it was a policeman. At least I know we were married, and we mean to keep it a secret, and that's all we care about."

Mr. and Mrs. Wright will remain here ten days taking their honeymoon on the night-seeing vehicles, Fifth Avenue buses, taxicabs and street cars.

## PRISONER'S WILY TRICK

But for the lucky chance of finding two prisoners talking very intimately in their cell, the Jewels lost by Miss Minnie Oldright, daughter of Dr. William Oldright, of 134 Carlton Street, Toronto, might be still missing.

Their discovery came about in a very unique manner. Early in the evening Dr. Oldright disordered a man apparently dazed, coatless and dilapidated, in the second story of his house. He did not in the least re-

Later it was found that Miss Odright's two neckties valued at \$1,300 were missing and on this being reported, Detectives Murray and Guthrie returned to the jail and once more searched the prisoner who now turned out to be Harry Wood. Again the search was fruitless.

and suspecting another prisoner whom they had seen Wood intimately conversing with. They subjected this

man to search. The surprise proved correct, for on this man the jew's was found.

It is thought that when he was searched in Dr. Oldright's house, Wood had the jew's hidden in his boots, and when he was taken to jail he immediately transferred them to his fellow prisoner, anticipating that another search of himself would be made. At this morning's Police Court Wood was sent to the Central Prison for one year.

Why Should a Chicken Lay a Soft-shelled Egg?

Because, Willie, the chicken don't know how to create a hard shelled egg unless it has some food with lime in it. So chicken-raisers often provide limestone gravel, broken oyster shells or some other form of lime.
Set the chicken wander free and it finds its own food and behaves sensibly.
Shut it up and feed stuff lacking lime and the eggs are soft-shelled.
Let's step from chickens to human beings.
Why is a child "backward" and why does a man or woman have nervous prostration or brain-fag? There may be a variety of reasons, but one thing is certain.
If the food is deficient in Phosphate of Potash the gray matter in the nerve centers and brain cannot be rebuilt each day to make good the cells broken down by the activities of yesterday.
Phosphate of Potash is the most important element Nature demands to unite albumin and water to make gray matter.
Grape-Nuts food is heavy in Phosphate of Potash in a digestible form. A chicken can't always select its own food, but a thoughtful man can select suitable food for his children, wife and himself.

# MAN KILLED, ANOTHER INJURED IN COLLISION

Double-header Ran Into the Rear End of a Freight at Port Hope This Morning—Fog Was Thick at the Time—One Man Was Killed and Another Lost His Leg

A fatal wreck occurred at an early hour this morning on the line of the Great Trunk Railway at Port Hope. The double-header train of the freight train was struck from behind by a passenger engine, causing the freight train to crash into the rear end of another freight train which was standing on the main line. The accident, apparently was due, in part to a very dense fog which prevailed at the time. The scene of the accident was about one-quarter mile west of the Port Hope station.

It appears that a double-header freight train, drawn by two passenger engines, crashed, ran into the rear end of another freight train which was standing on the main line. The accident, apparently was due, in part to a very dense fog which prevailed at the time. The scene of the accident was about one-quarter mile west of the Port Hope station. The double-header train is reported to have been traveling quite fast at the time it came into the standing freight with terrific force, plunging into it for one or six car lengths. The engine and four or five cars of freight were completely demolished, and the passenger engine, which was used as the first engine, was killed instantly, and the engineer, a Belleville man, named Naylor, crashed without a scratch. Another employee whose name was unable to ascertain, had a leg so badly mangled by the wreckage that he was unable to be rescued immediately. The two locomotives were thrown sideways across the track, the second engine being forced right up on top of the first. Two cars of freight were smashed up and blocked the track near the double-header train. The wreckage was being towed to the right by the track being blocked. Passengers were transferred from the double-header train to a train which was run up to this city.

## LATER

The following dispatch was received from the Port Hope, April 12.—Two freight trains, one from the Great Trunk Railway collision here today. From the station, the train was killed, and the engine, a Belleville man, named Naylor, crashed without a scratch. Another employee whose name was unable to ascertain, had a leg so badly mangled by the wreckage that he was unable to be rescued immediately. The two locomotives were thrown sideways across the track, the second engine being forced right up on top of the first. Two cars of freight were smashed up and blocked the track near the double-header train. The wreckage was being towed to the right by the track being blocked. Passengers were transferred from the double-header train to a train which was run up to this city.

## MARKET TOLLS TO BE LET FOR \$2000

At a meeting of the various civic committees held last evening considerable business was transacted, including the carrying of many recommendations. The Market and City Property Committee recommended that the bridge of \$2000 for the market tolls be accepted. The same committee recommended that the position of collector of the city building and police station be declared vacant and that application for the position be received up to the 15th inst. The Public Works Committee made several recommendations in reference to the cemetery work to be done under the act of that committee.

# LOOK AFTER YOUR SILVER

The Housewife Must Exercise Time  
to Keep It in Good Condition

All household silver needs careful  
attention, and to keep it in good  
condition is the duty of every  
housewife.

It is not enough to wash the  
silver with soap and water. It  
must be polished with a soft  
cloth.

It is also important to keep the  
silver in a dry place, away from  
moisture.

By following these simple rules,  
a housewife can keep her silver  
in perfect condition.

## FOUNDER OF THE AMERICAN RED CROSS SOCIETY DEAD

WASHINGTON, April 15.—Miss Clara Barton, founder of the American Red Cross Society, died at her home in Glen Echo, Md., at 10 o'clock this morning. The cause of her death was pneumonia, which she contracted while working for the Red Cross during the war.

A brother, Stephen Barton of Boston, was born at Oxford, Mass., in 1821.

Miss Clara Barton, founder of the Red Cross Society, was one of the most famous philanthropists of modern times. She was born in North Oxford, Mass., in 1821. She was the youngest of five children of Stephen Barton, who was a farmer.

Her first appointment to the duties of nurse in which she afterwards made such a noble contribution was as the only trained nurse of age and she was the special attendant of an ailing brother. After she finished her studies in the district school, and subsequently graduated from the Clinton (N.Y.) Liberal Institute, she taught school in various places in Massachusetts and New Jersey with little remuneration.

Her health failing as a result of overwork, she obtained a position as a private nurse in Washington, but was dismissed after a few days on account of her delicate health.

She then went to the home of her mother in Northampton, Mass., where she remained for some time. She then went to the home of her mother in Northampton, Mass., where she remained for some time.

ways direct and bold others to their place in the work, saved many lives and smoothed the way into the dark valley for many others that could not be saved. Eventually General Bell gave her the official position which enabled her to accomplish her work, and one of her most notable achievements was the tracing of missing soldiers and the recovery of their remains.

Miss Barton came to Europe for relief work in 1862, but at the outbreak of the Franco-Prussian War she was enticed by the Central Society of the International Red Cross, to which her record was known, to go to the front and assist in caring for the wounded of both armies.

She went at once to the seat of war and for a year worked with the society in Germany and France. On her return to the United States she awakened the public interest and proceeded to organize the American Society of the Red Cross.

## POGS CONTINUE TO ADVANCE

The market to-day was well supplied and prices on usual basis were in good proportion for sale. Owing to the above factors, being the first of the season, and the fact that in consequence of a good supply of early potatoes, the market was well supplied.

French peas were plentiful and sold at from 20c to 25c a bushel. Some crops at a lower price were sold for market.

Dressed poultry was very scarce and sold at from 10c to 15c a pound. Potatoes are exceedingly scarce and commanded exceptionally large prices. Maple syrup was offered for sale in considerable quantities at 90.00 per gallon.

In the grain and fish markets there was no change in price. The hog market remains unchanged. The pig week porkers brought \$9.25 per cwt.

IN WHAT WAY?—You May Ask

Three years ago a party of pioneers, were chained one mile from town site, between the up and station were so insignificant that the factor was unable to locate it in the dark.

To-day upon the same spot a modern town stands.

Doubling in wealth and population Biggar stands prominent with its natural drinking springs sending forth a natural flow of a million and a quarter gallons per day, which is all increased my machinery.

Two great Transcontinental Railways pass through Biggar—the G.T.P. and C.P.R. The Grand Trunk Pacific have recognized the importance of Biggar and are making enormous expenditures in providing for the demands of a modern city. They have secured and are receiving hundreds of acres of valuable town property.

# THE GREAT DISASTER

The Name of Mr. C. M. Hays is Not on the List of the Saved

HOPE NOW ABANDONED

Other Steamers Say They Have No Survivors Aboard.

Parish Reports That His Best Friend Nothing From, Virginia or Titanic

Capitola Is Missing—Slowly To Work New York. But Has Not Out of Touch With Parish—Total List of Saved is 22.

New York, April 17.—Only a faint hope remains that any of the 1,342 passengers and crew who have been missing since the great Titanic sank have been picked up by transatlantic liners. The 160 survivors rescued from lifeboats by the Canadian Carpathia, now on her way to this city, are only known saved.

The bold and daring wireless messages that came to land yesterday suggested those that some of the ill-fated passengers may have been picked up at sea by the steamship Virginius and Parish of the Allan Line. Both of these steamers said word that they had no passengers of the Titanic on board.

Of the 400 persons rescued by the Carpathia, the names of 200 passengers have been received by wireless up to 4:30 yesterday afternoon. The Carpathia is evidently making a large range of the sea, for after that time the Carpathia was still and the wireless messages were false and the Carpathia was still.

At New York yesterday afternoon, Captain Franklin of the White Star Line said that he has no hope of finding any of the Titanic survivors. He said that he has no hope of finding any of the Titanic survivors. He said that he has no hope of finding any of the Titanic survivors.

Mr. Franklin also said that the Carpathia is still on her way to New York. He said that he has no hope of finding any of the Titanic survivors. He said that he has no hope of finding any of the Titanic survivors.

# Fashionable Dress Goods

This is a season of dresses and a variety of fabrics, a beauty and richness that no other season has equalled as here awaiting your choosing. You can in your choice of the inexhaustible variety of shades and weaves, until all have seen our display. There are fabrics for gowns for all occasions; light and airy materials for evening wear, medium and heavy goods for house and street wear in a complete range of staple as well as novelty shades.

We accept second place to no one in Canada in the matter of dress goods. The knowledge and experience of over fifty years of leadership aid us in our choice and you will find every yard of goods in our store at every price measuring up to the Ritchie standard and we are undersold by no one.

Gloves to Match the New Costume

Important, indeed, is the matter of gloves to the well-gowned woman. They must be correct in style, fit and shade. We cannot find any other make of gloves which give such general satisfaction to our customers as Perrin's and we recommend them to all who value style and price. We show them in all fashionable lengths and shades.

Every pair guaranteed. \$1.00 to \$5.50

New Arrivals in Ladies' Black Coats

We have just received a large shipment of Ladies' Coats, including some of the latest styles for elderly ladies. They are made from alpaca, taffeta, messaline and gros-grain silk; in new three-quarter and full-length styles; beautifully trimmed with embroidery, braiding, fringe, etc.; all sizes at every price from \$8.00 to \$30.00

Correct Corsets

The best dressed woman is the one who pays the greatest attention to her corseting. No matter how expensive or beautiful the gown it will be spoiled by an ill-fitting corset, but the cheapest gown looks well on a well-corseted form. It is most important to secure a corset that is not only stylish and comfortable but the exact model adapted to your particular figure. We carry only the BEST AMERICAN AND CANADIAN CORSETS and can fit perfectly every type of figure.

Woman Exonerated of Blame For

**Husband's Death.**  
Kingston, April 18.—A jury empanelled by Coroner Mandell, found that George F. Berryman, Cushman, came to his death as a result of blood-poisoning, arising from a slight wound.

Mrs. Berryman, his wife, told a shocking story about her husband's ill-fallen: *Edward himself and child*

Mrs. Berryman told of a row she had with her husband a week ago.

While at table, he picked up a butcher knife and made after her, saying: "I'll cut your heart out and trample upon you," and made a rush at her.

Mrs. Bryman had a small teakoeper in her hand at the time and she threw it at him and ran out of the house and sought shelter in a barn. He was found on the floor by one of the neighbors with blood flow-

Sir James' Whitney stated yesterday that the Government would have asked Mr. Gamney to lead the party, but he had found it unable to do so.

The Prime Minister denied the truth of certain published statements that Mr. Gagey would not go north on account of differences between the government and himself with regard to remuneration.

"The exploration party will be gone for probably five months," said Sar James, "and Mr. Gamey finds it impossible to remain away from his business for that length of time. The statement that he is not going be-

use of differences between the Government and himself is absolutely untrue. The question of his remuneration never has been discussed by any member of the Government and himself and has not even been consid-

# 710 SURVIVORS ARE ON BOARD AND 1514 HAVE PERISHED

Authentic Report Shows That  
1801 Persons Met Death.

With Band Playing the Lifeboat  
Went Down, Leaving Only a Small  
Part of Her Human Cargo Abandoned  
to the Great White Fish of New-  
foundland early on Monday morning.

The ship, April 18—The Cunard  
liner Carpathia, a ship of gloom and  
sorrow, came into New York last night  
with the first news direct from the  
Great White Star liner, "Titanic," which  
sank off the Grand Banks of New-  
foundland early on Monday morning.

She had 710 men down with her  
and 1,514 were missing, taking with her  
about 700 of her human cargo of  
2,224 souls.

To the awful death of six persons  
were added, the list in the lifeboats  
on the same ship, and the number of  
side and five subsequent rescues, the  
total of prominent men missing, stated  
officially reported to be 1,514. The  
death list on the ship last night by  
the Carpathia is as follows:

Bertrams in the lifeboats landed  
at the docks at 4 o'clock. The ship  
from the stricken ship and saw her  
go down. At the same time on the  
line her struck, several died.  
The ship, however, some of the  
compassionate crew prevailed: others  
were killed. The ship was struck  
that there was a material saving.  
The ship, however, some of the  
struck an iceberg or reported by wire-  
less, and confirmed by the ship.

Sensational rumors told by hysterical  
passengers who were picked up by  
the Carpathia, said that Captain Smith  
was killed. The ship was struck

# The Understudy of the Sun

## McClary's Sunshine Furnace

WHEN Old Sol swings low and far away, He appoints an understudy for the purpose of keeping Jack Frost where he belongs—Outside.

Years ago McClary's "Sunshine" Furnace, by its marvelous heating capacity and, by balmy June air, it sufficed to the Sun. That appointment has been confirmed year after year, and—your "Sunshine" Furnace—Jack Frost's Master awaits your orders for the coming winter.

Remember the past winter—the Frost King was very active—He battered us with a three months' reign of snow and ice—Almost conquered the thermometer by chasing the mercury out of sight. But he failed to penetrate through the Understudy of the Sun—McClary's "Sunshine" Furnace—was on the job in the cellar of these homes.

It's easy to keep Jack Frost at a safe distance with the "Sunshine" Furnace. Ice may come and rave outside, but there is no place for him within—because, the Understudy of the Sun has demonstrated its mastery in the home.

The average furnace is a glut-ton for coal—it literally burns up money. The "Sunshine" Furnace saves money—costs its cost in a very few years because it burns coal sparingly. Call on the McClary agent of your locality and ask him to prove that you can't have a furnace—yours—just as well as the "Sunshine" furnace will cut your coal bills by a very pleasing margin we don't want your order. That's the fairest way we know of doing business—does it appeal to you?

There are a multitude of reasons why the "Sunshine" Furnace does save fuel—reduced coal bills—reasons that will be printed in the following advertisements. Here is one that should make you call on the McClary agent at once—the "Sunshine" Furnace has four radiating surfaces—surfaces that gather up the heat greedily and diffuse it liberally all over the house.

But—you just call on the McClary agent and ask to be shown it. If you do not know him write us at our nearest address and we'll tell you.

You certainly owe it to yourself to find out why McClary's "Sunshine" Furnace is called the "Understudy of the Sun."

## SUN TAT SEN IS LATEST

EXPONENT OF TAX REFORM

The latest exponent of tax reform is no longer a person than Dr. Sun Tat Sen, formerly provincial President of China.

Dr. Sun Tat Sen made a study of the proposals of the various economists who relate to the fiscal and financial conditions of the country.

He is of the opinion that the tax system of the country is in a state of confusion and that it is necessary to reform it.

# The Spring Wall Papers Have Come

We have just opened up the most beautiful line of Wall Papers we have ever carried.

To look at them you would think them high priced papers, but when you come to price them you'll find them remarkably low.

We can sell wall paper right because we buy right. We handle the goods of only the best maker and charge only a reasonable profit. Such beautiful papers and such values will surely induce you to choose our pattern this spring.

Come and see them and use our new Cut-Out Friezes

# SOME EASTER EGGS WERE VERY COSTLY

The city of Paris, which has always been loved by the Easter of Russia, has just presented that monarch with a distributed amount of money to general children attending certain Sunday schools in the city.

The egg contained presents to the value of \$100,000, while the other decorations which included a daily amount of the Easter and one of the decorations which included a daily amount of the Easter and one of the decorations which included a daily amount of the Easter.

A continually continued battle, when the Easter and one of the decorations which included a daily amount of the Easter and one of the decorations which included a daily amount of the Easter.

In Russia Easter ranks before Christmas in point of popularity, and the wealthy classes make extraordinary efforts each year to produce something novel for Easter.

The late Grand Duke Paul on one occasion gave an Easter Sunday banquet at which over 100 guests were present.

There was a great outcry at the time against this extravagant expenditure of money, but the Grand Duke had no other choice.

# DOCTORS AFRAID TO OPERATE

Could Not Remove Stone From the Bladder. Gin Pills Enabled Him To Pass It.

"During August last, I went to Montreal to consult a specialist as I had been suffering some while with the bladder. He decided on an operation, but I did not expect they would remove the stone by the use of Gin Pills.

# TUNNEL TERMINALS

## BROOKLYN OF MONTREAL

**M**APS are sometimes distorted to give people false impressions of locations.

This map is drawn to scale, and can be relied upon as absolutely accurate.

This map is the most convincing argument we have to advance that "Tunnel Terminals" subdivision is the most attractive land investment on the Montreal market to-day. Bear that in mind **THE MOST ATTRACTIVE.**

### WHY?

Property in a diametrically opposite direction to "Tunnel Terminals," but nearly twice the distance from the City Hall has recently sold at an average price of 65 cents a foot in anticipation of a Tunnel beneath the Mountain that will take from two to three years to complete, and in anticipation of a Model City that must also take some little time in the building. All other properties in every other direction the same distance from the City

Hall as "Tunnel Terminals," costs from 99 cents a foot and up.

"Tunnel Terminals" has an electric car service and 25 minutes is the time schedule between there and the City. "Tunnel Terminals" has also a tunnel in anticipation that is no myth, nor is it a dead issue.

"Tunnel Terminals" district has a MODEL CITY in anticipation and the site is ideal, and wonderfully adapted for a Model City in its gradually rising ground, commanding a glorious view of the mighty St. Lawrence river and the City of Montreal, but far enough away to avoid any possible objectionable features associated with a large city.

**WELL, WHAT ABOUT THE PRICE?** The PRICE is the wonderful ATTRACTION in this property.

Lots in "Tunnel Terminals" to-day selling for an average of 13 cents a foot, at present as low as 7 1/2 cents a foot, will in three years time sell for 25. YES! 35 and to be conservative say 40 cents a foot, which is easily 400 per cent. above prices that prevail to-day.

Compare this with all other prices.

**IS THAT WHAT YOU WOULD**

**CALL AN ODISIOUS COMPARISON?**

And is it not possible that you can see that an investment in Lots in Tunnel Terminals to-day is without doubt the most attractive on the Montreal market. This is not knocking. We are not in that business. It's merely making a comparison.

### WANT CITY'S SUPPORT OF RIVER TUNNEL PLAN

**Montreal Tunnel Co. Asks Board of Control to Support Their Project.**

Mr. Thomas McKeown, President of the Montreal Tunnel Company, has written to the Board of Control, asking the city's support for the company's project for building a tunnel under the St. Lawrence opposite the city. The writer points out in his letter that the additional area given to the city through the tunnel would benefit not only the city and the Province but the country at large. Application was made to the Federal Government to grant the company the privilege to re-construct the tunnel, and Mr. McKeown added: "We are desirous that the city authorities should pass a resolution expressing our enterprise and urging the Government to sanction the undertaking."

The letter was held on the table for consideration at another meeting. (From Montreal Star.)

The authorship asked for in the above paragraph has recently been granted.

## The Spring Wall Papers Have Come

We have just opened up the most beautiful line of Wall Papers we have ever carried.

To look at them you would think them high priced paper, but when you come to price them you will find them remarkably low.

We can sell wall paper right because we buy right. We handle the goods of only the best maker and charge only a reasonable profit. Such beautiful papers and such values will surely induce you to decorate several rooms this spring.

## TAGT EXPLAINS THE "PARTING OF THE WAYS"

In a Confidential Letter to Col. Roosevelt He Said That Canada's Business Would Go to New York and Chicago—Planned that the Dominion Should Become an Ally of the U.S.—Scores Roosevelt For "Change of Front."

BOSTON, Mass., April 29.—At a campaign meeting here last night in which he devoted his whole speech to an attack on Col. Roosevelt, President Taft said public correspondents had taken him to task for his "change of front" in his attitude toward the United States.

He was charging Roosevelt with a change of front. The Rough Rider candidate, who a previous time had been the Republican mainstay, was, he said, appealing against the United States in the face of the fact that the Republican administration had been so thoroughly the friend of the United States, in the face of the fact that the Republican administration had been so thoroughly the friend of the United States.

Taft also submitted his letter to Roosevelt, in which he declared that the agreement would make Canada "subject to the United States," with their back broken and over their heads.

"Mr. Roosevelt," said Taft, "now we are going to advance on the great issue of free trade, which is the real issue of the hour. I am going to support the free trade bill, which is the real issue of the hour. I am going to support the free trade bill, which is the real issue of the hour."

"This letter," said Taft, "is a masterpiece of logic and argument. It is a masterpiece of logic and argument. It is a masterpiece of logic and argument. It is a masterpiece of logic and argument."

"I am going to support the free trade bill," said Taft, "because it is the only way to save the country. It is the only way to save the country. It is the only way to save the country. It is the only way to save the country."

"I am going to support the free trade bill," said Taft, "because it is the only way to save the country. It is the only way to save the country. It is the only way to save the country. It is the only way to save the country."

"I am going to support the free trade bill," said Taft, "because it is the only way to save the country. It is the only way to save the country. It is the only way to save the country. It is the only way to save the country."
